Data: ST KAGAKU KK (ESUT )</p>  | <p>INAH-96.09.12<br/>         *JP 10087477-A<br/>         A(5-H3, 12-V1, 12-V4) D(8-B12)</p> |
| <p>The bath preparation includes a perfume, moisture agent, plant extract,<br/>         colouring agent. Additionally, 65-85% of polyethylene glycol, organic<br/>         acid and 10-35% of carbonate compounds are contained. An enzyme,<br/>         silicic anhydride and calcium silicate are also included in<br/>         predetermined amount.</p> <p><u>ADVANTAGE</u><br/>         Does not sink when put in hot water and dissolves within<br/>         predetermined time. Enables bathing time to be enjoyed enough,<br/>         effectively. Obtains buoyancy by CO<sub>2</sub> generation.<br/>         (2pp3077DwgNo.0/0)</p> | <p>JP 10087477-A</p>   |
